Public Order Bill Report [Lord Sharpe of Epsom] *17th Report from the Delegated Powers Committee, 1st Report from the Joint Committee on Human Rights, 7th Report from the Constitution Committee*

Environmental Targets (Fine Particulate Matter) (England) Regulations 2022 Lord Benyon to move that the draft Regulations laid before the House on 19 December 2022 be approved. *Special attention drawn to the instrument by the Secondary Legislation Scrutiny Committee, 25th Report (Dinner break business)*

Baroness Hayman of Ullock to move, as an amendment to the above motion, at the end insert “but that this House regrets the lack of ambition and urgency in the Regulations in relation to the target for annual average concentration of PM2.5 in ambient air; notes that the target of 10µg/m3 by 2040 is both less ambitious than current World Health Organization guidelines, which specify an annual average concentration of 5µg/m3, and less urgent than proposals from the European Commission, which seeks to achieve the target by 2030; and therefore calls on His Majesty’s Government to bring forward, as soon as practicable, a revised PM2.5 target which better reflects (1) the dangers posed by toxic air, and (2) the significant public support for improving air pollution”.
